Nick Sippl, owner of Nick's Tile and Stone, has been working with Stone and Ceramic Tile for over fifteen years. Though the company was started primarily a tile repair business, it is now a full line Tile, Stone, Barrier Free / Handicap, and Water Damage Restoration company. We have seen many changes in the technology and products we use. It's our goal to stay on top of these changes so you the customer can benefit by receiving a top quality installation, and a product that we know you will enjoy.

Our goal is customer satisfaction. It's what the business is built on. At Nick's Tile & Stone we will work hard and make sure that the job is done right. So feel free to give us a call today and we will come out to your house and work with you to find the right solution for all of your projects. And as always customer service and satisfaction is our number one priority.

Barrier free is a term that has been heard a lot lately, and will continue to grow as the "baby boom" generation gets older and will desire the convenience and beauty of a barrier free shower and bathing area. The one question you will hear most from us regarding Barrier Free is – "You're the customer, your needs come first. What do you want and need from this installation?"

Our goal is to make you a satisfied and above all "Comfortable " customer regarding your Barrier Free installation.

**Ceramic Tile –**  
Ceramic tile installation and repair is what the business was founded on in the early 1990's. The main specialty was repair. We would take on jobs no one else wanted to. Such as leaking shower floors. We also found that many times a simple repair was all that was needed as opposed to an entire removal and reinstall. This also led to becoming a leader in Insurance repair.

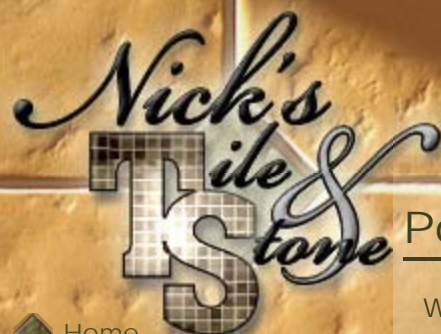

Although repair started the business, the majority of work is now installation.

**Natural and Cultured Stone installation –**  
Branching off into the Stone installation part of the business was a natural transition.

We put the same high quality expertise into a Stone installation of either Natural or Cultured stone. We can handle the entire job from
